

MULK HEALTHCARE ENTERPRISES

**Transform Your
Health Care
Experience**

COMPANY PROFILE

Mulk Healthcare Enterprises – the premium Healthcare division is integral part of UAE-based Multinational conglomerate Mulk Groups with diversified business interest and presence in more than 64 countries - is head quartered in Dubai, United Arab Emirates. Mulk Healthcare Enterprises is having its operations in Healthcare Industry for over a decade and is a global distributor of Healthcare Products. We lead the Healthcare Industry by offering full service solutions. Mulk Healthcare products appear worldwide in a range of medical applications, including hospital care, sub-acute treatment, long-term care, home healthcare, and medical emergencies.

Managed by leading healthcare professionals whose clearly defined objective is to become a valuable partner to rapidly growing healthcare industry in the region. This includes major government and private sector hospitals, medical institutions, pharmaceutical chains & distributors. We provide a vital link between healthcare and technology. We are specialized in comprehensive range of medical consumables & devices.

With our profound experience in healthcare industry we can dynamically understand and analyze the market needs of medical devices, clinical diagnostic equipment and medical consumables. This has helped us to source, stock and to become the preferred vendor in the region.

We offer maximum value to our customers through excellent quality, price & service support. We strive to make healthcare products affordable to all sectors. Our products comprises with all international quality certification including ISO, CE or FDA.

OUR CHAIRMAN

DR NAWAB SHAFI UL MULK

Mulk Healthcare Enterprises is headed by Dr. Nawab Shafi Ul Mulk as Founder & Chairman of Mulk Healthcare Industry -also listed consecutively for 3 years in Forbes List of " TOP 100 Influential & Powerful Indian Middle East Leader List 2016, 2017 and 2018."

Mulk Healthcare Enterprises also encompasses different healthcare verticals ranging from Ambulatory Healthcare Services, Clinical Services, Para-clinical Services, Onsite Chain of Diagnostic Centres to Mobile Diagnostics.

Mulk Healthcare has diversified portfolio and experience in the supply of any model of medical equipment used in health facilities (hospitals, clinics, health centers) at Private and Governmental level – effective and constant support to the Client's demand. This is further felicitated by business collaboration with industry leaders like Philips Healthcare, Neusoft , Fuji etc.

PRODUCTS

Hospital Equipments

Hospital Furnitures

Radiology and Imaging Products

Genetic Kits

Ventilation Products

Intubation Products

Gas Supply

CPAP Therapy

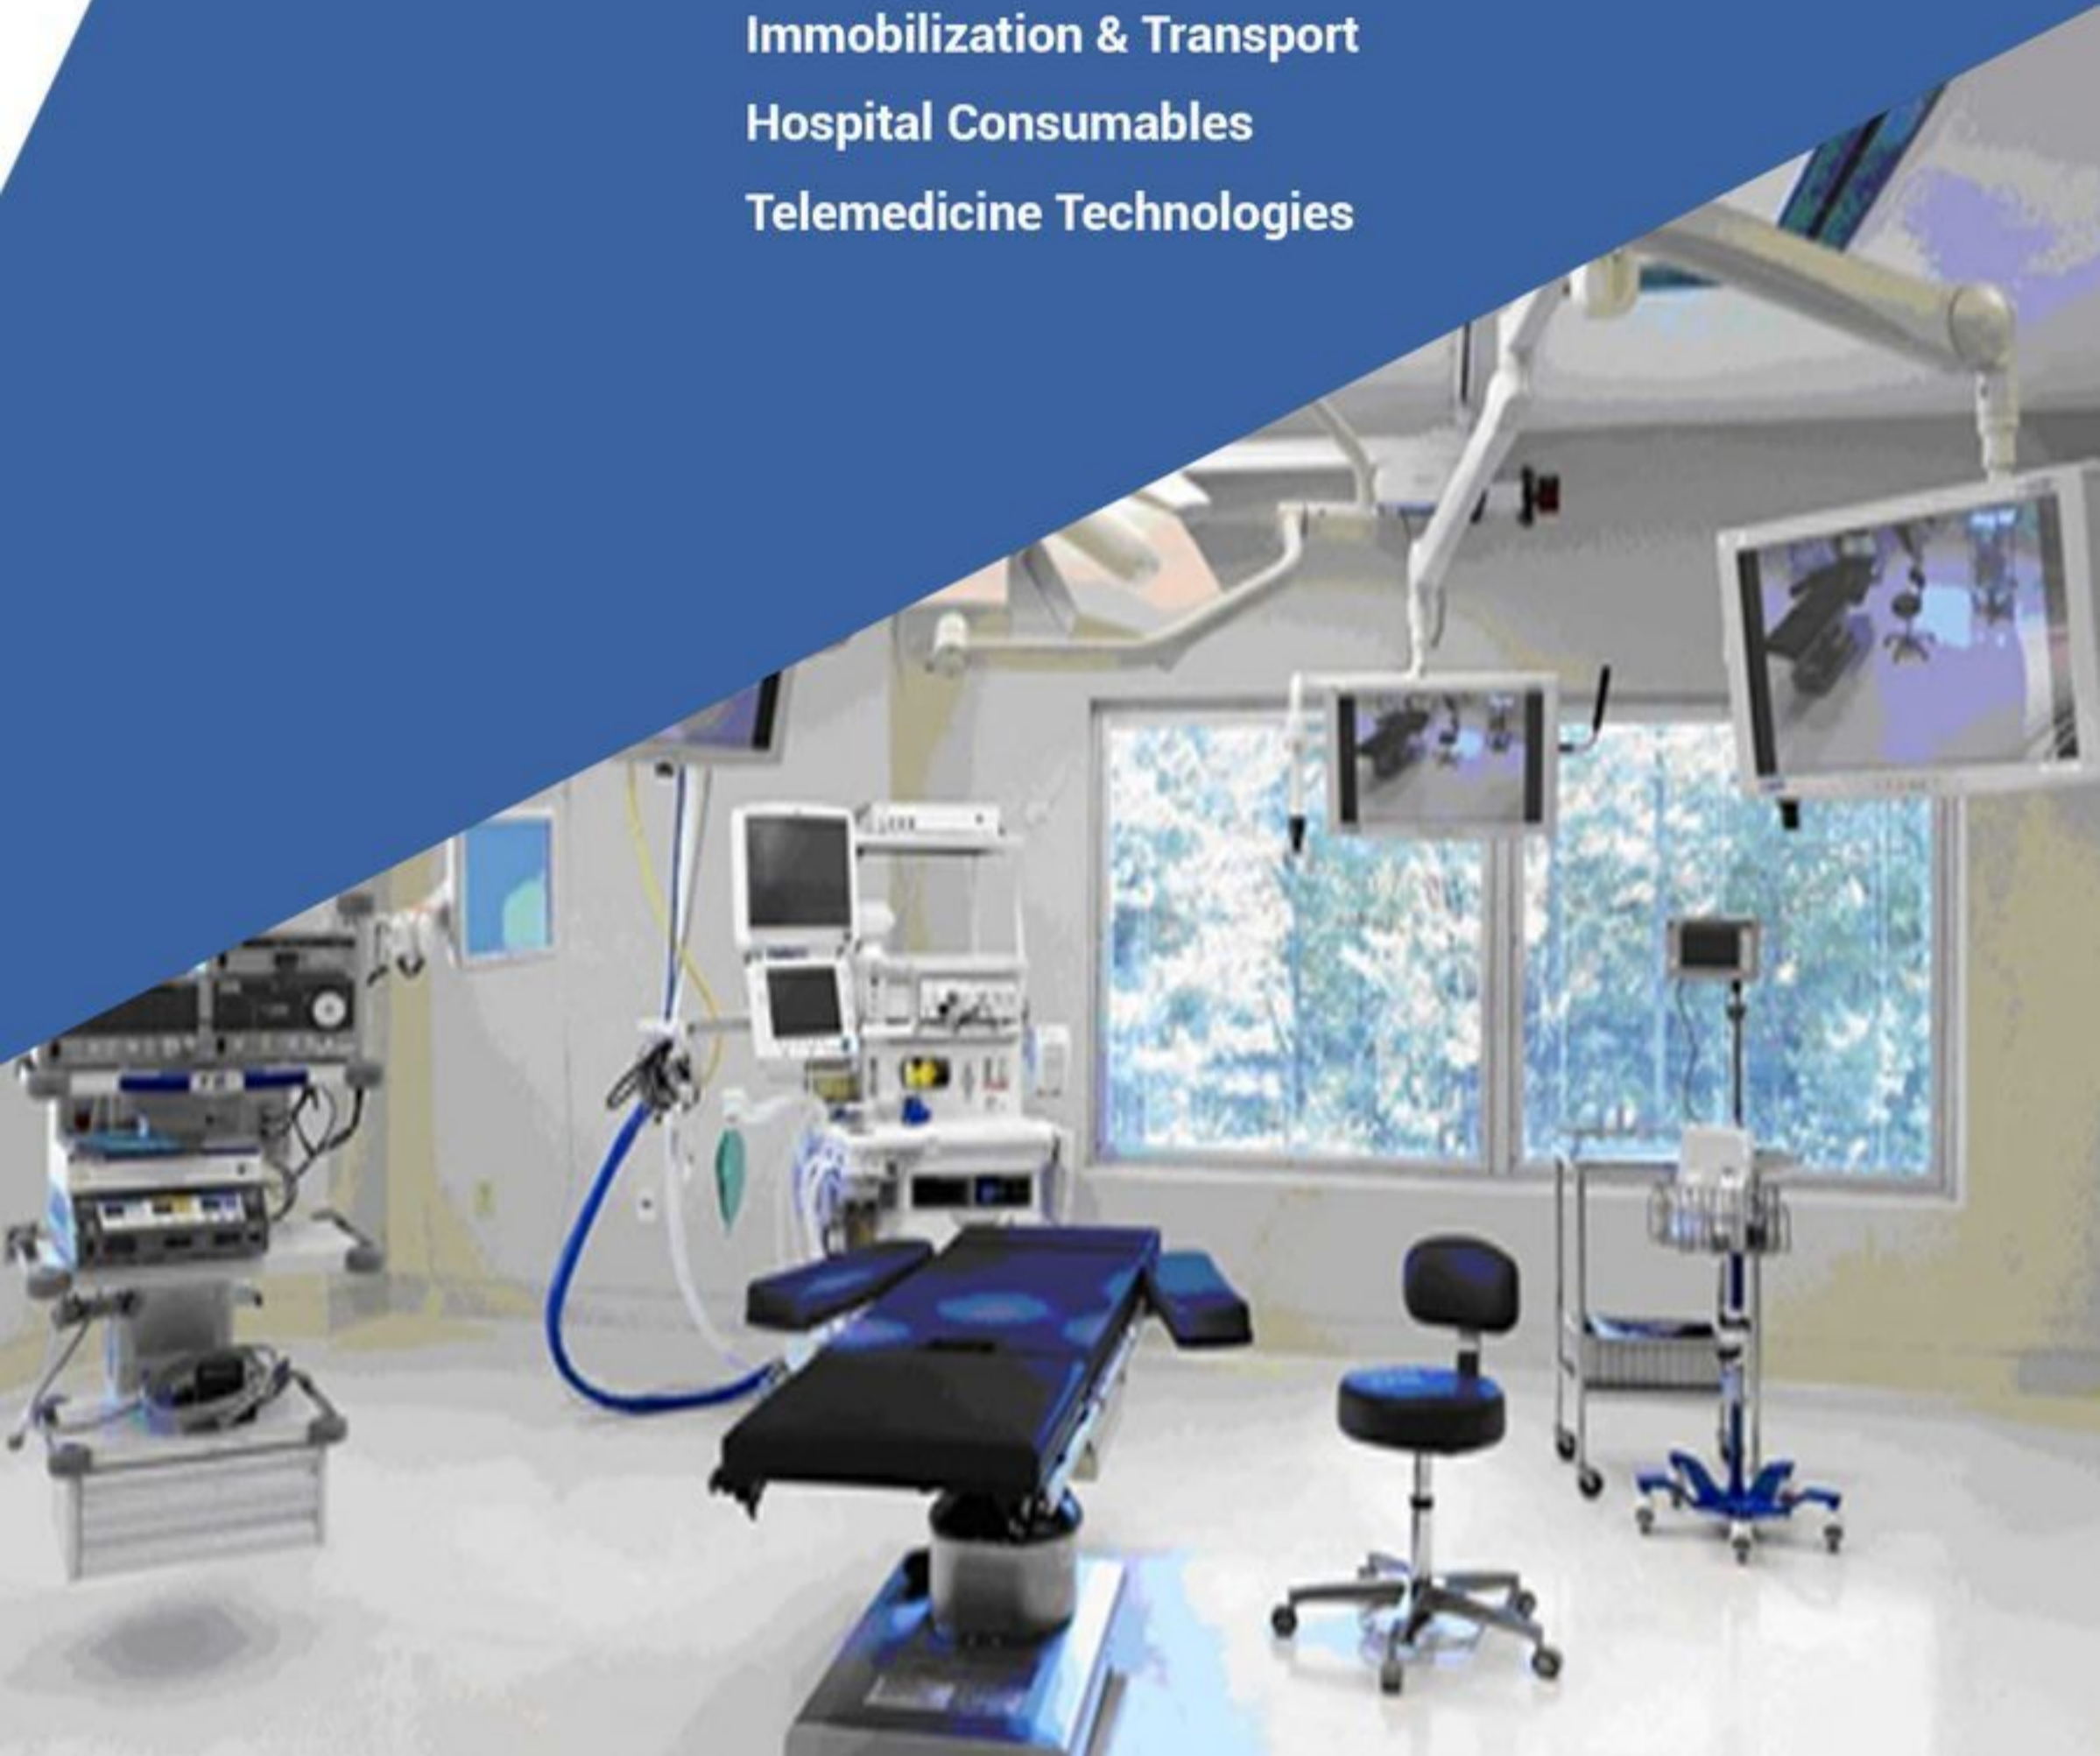

Patient Monitoring

Suction Equipment

Immobilization & Transport

Hospital Consumables

Telemedicine Technologies

Pulse Oximeters and Accessories

Knee Hammer

Ear Thermometer and Probe covers

Adapter Cables and Sensors

Ear Thermometer and Probe covers

Pro AED Defibrillator

- Accurate and Reliable ECG Analysis
- Self-Test Function
- Easy to Use
- AHA / ERC Guidelines for CPR and Defibrillation Motion Detector
- Pace Maker Detection

HOSPITAL FURNITURES

PET & CT

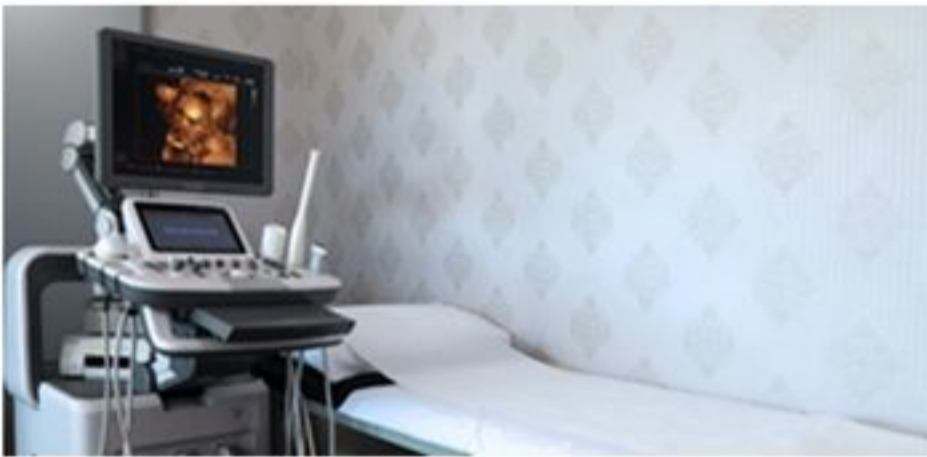

MRI

DEXA

ULTRASOUND

MULK DIGITIZER

MAMMOGRAPHY

X-RAY

Mulk Genetics

Genetic Mapping Kits

- Test your genes to reveal what diseases or conditions you may be at a greater predisposition towards developing.

Ancestry kits

- Genetic testing that estimates percentages of your origins

Infectious Diseases Kits

HAIs Kit

- This kit is a diagnostic tool to detect HAIs

Oxygen Cannulas

Sterile Water Systems

Oxygen Safety Tubing

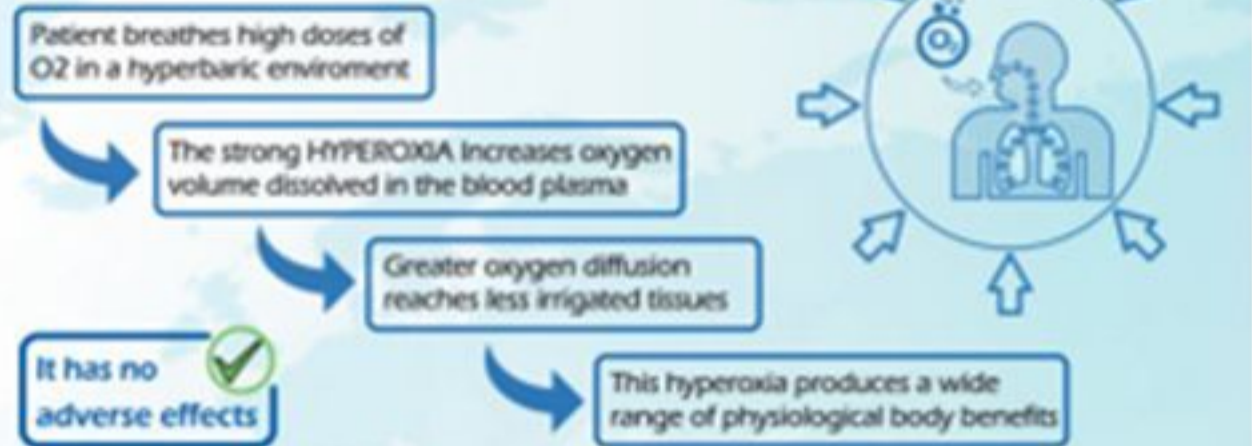

Holders for Sterile Water Systems and Humidifiers

Hyperbaric Oxygen Therapy

Mechanism of action of HBOT

Beneficial effects of Hyperoxia

Hyperoxia produces a long chain of Physiological effects including:

- Vasoconstricción
- Angiogénesis
- Osteogénesis
- Estimulación de inmunidad celular
- Estimulación de la síntesis del colágeno
- Oxidative stress and inflammatory response regulation
- Stem cells stimulation
- Peripheral axonal regeneration stimulation
- Cerebral blood flow increase and redistribution
- Greater success of flaps and implants

Proven therapeutic efficiency

Hyperbaric Oxygen Therapy

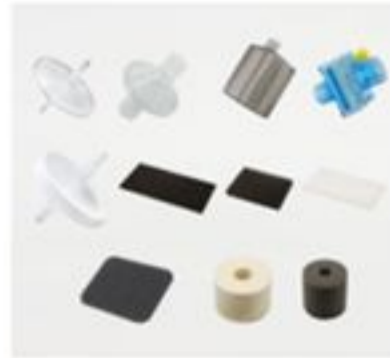

- Venous ulcers
- Diabetic Foot
- Post-surgical wounds
- Peripheral arterial disease
- Burns
- Bed-sores
- Skin flaps and grafts
- Ulcerative arteriovenous malformation

VENTILATION PRODUCTS
